

BCA | Analytics

RESEARCH ► ANALYSIS ► INSIGHT
Charting the course to investment insights

BCA Analytics unlocks the value of BCA's analytical research, supporting discovery, idea generation and seamless workflow integration through charts and indicators.

KEY BENEFITS

- Quickly understand the research context for charts.
- Build personalized real-time chart libraries and chartbooks.
- Powerful search engine to quickly discover relevant data points and charts from our repository of over 50,000 charts to support investment themes and ideas.
- Combine BCA's top down themes with the most accurate earnings and revenues forecasts for U.S. equities from Estimote, to develop new trade ideas and manage risk.
- Customize charts by adding/removing datasets, adding annotations and changing the look and feel to fit your corporate brand.
- Use investment research within internal and external presentations to support investment proposals.
- Track chart stories and data over time through a dedicated alerting engine.
- Effectively maintain and quickly access a repository of relevant charts.
- Effectively utilize investment research in regular asset allocation, and/or investment meetings.
- Share and collaborate around investment research content to generate ideas and debate.
