Exceptional Macro Insights. Reinvented for Modern Workflows.

BCA Intelligence Platform transforms decades of published macro research into a machine-readable, enterprise-ready intelligence layer, enabling structured real-time delivery and seamless integration into search, analytics, and AI-assisted workflows.

The Industry’s Longest Continuous Macro Record.

Since 1949, BCA has maintained the longest continuous published macro research record in the industry, spanning multiple inflation cycles, policy regimes, and structural market transitions.

BCA Intelligence Platform. An Edge Others Can't Replicate.

75+ Years of Macro Research Insight

- Full-cycle macro coverage from 1949 to today
- Compare today's environment to past inflation, tightening, and crisis regimes
- Study how inflection points were identified as they happened
- Stress-test positioning against historical analogs

Designed for AI & Quantitative Workflows

- Interactive retrieval across decades of macro research
- Natural-language querying with citation-backed responses
- Structured delivery of real-time research
- Machine-readable text and standardized metadata

Enterprise-Grade Governance

- Secure, institutional-grade API access
- Entitlements by product, time window, and usage tier
- Metering, audit logs, and usage controls

Wherever Your Team Works

Available across your AI and research ecosystem

Ask AI

The Future of Macro Research Is Integrated.

Macro insight is no longer confined to reports. It is embedded inside data platforms, analytics workflows, and AI-enabled investment processes.

The **BCA Intelligence Platform** combines structured real-time research with interactive access to 75+ years of historical insight — designed for search, analytics, and AI workflows.

Structural Regime Advantage

75+ years of macro research spanning multiple inflation, policy, and crisis cycles.

AI-Enabled by Design

Machine-readable research for secure AI-assisted workflows.

Embed in Your Infrastructure

Integration-ready delivery

Accelerated Insight

Instant access to current research and historical context, reducing manual research friction.
